

Fortune Engineering & Energy Services LLC

Quality, Health, Safety and Environment Policy

QHSE POLICY

Fortune Engineering and Energy Services Group is committed to provide high quality Engineering, Procurement, Construction and Commissioning Services, Design and Manufacturing of Custom Process Packages for Oil and Gas Industries, Petrochemical and Energy-generation/distribution Industries.

In this excellence pursuit, we commit ourselves to

- Continually improve all processes to enhance customer satisfaction by ensuring improved quality, reduced cost, and effective after sales services including product safety.
- Prevent accidents, incidents, injuries and ill-health
- Proactively monitor the unsafe conditions, unsafe act and hygiene and promptly report and act on such conditions
- Conserve natural resources by responsible and efficient use;
- Assess the environmental impact of our operations and seek to segregate and reduce or eliminate waste, and prevent pollution.
- Identify and assess the risks associated with business and train the staff about QHSE aspects. Set and achieve challenging Key Performance Indicators using appropriate operational practices;
- Ensure that appropriate resources are available to fully implement this QHSE policy and continually review the adequacy, suitability and effectiveness of the policy's relevance with respect to organizational improvement and business development;
- Work with suppliers and service providers to facilitate their QHSE performance improvement and also make it obligatory for them to follow safety rules and safe practices.
- Comply to the law / legal, regulatory and other requirements of the countries where we operate associated with QHSE aspects of products and processes handled;
- Provide information on the QHSE policy to the public, concerned authorities and interested parties on demand and ensure that the policy is understood and implemented by employees at all levels within the organization.
